

Welcome to Collins Dairy,

We are a family-owned dairy that is proud and happy to host the 2023 Brown County Breakfast on the Farm!

Lisa and Kevin started farming on their own in 1987 with the help of a retiring farmer and great support from their families.

We started out with 40 cows along with 5 children who helped throughout the years, to our present herd of 1300 milking cows and young stock. We also operate 3000 acres of land. As of 2021, Collins Dairy LLC includes Brittany Vander Kinter (husband Nick, kids Colin, Alayna, Lexie, and Nora) and Luke Hopkins (wife Cara and son Dale) valued partners in the LLC.

Our cropping and nutrient distribution is done by Vander Kinter Farms LLC custom business. We have a great team of 22 employees that work together to help make this a sustainable dairy farm. Some of the employees have been with us for many years. We concentrate on the care of cattle and work hard at being good stewards of the land.

Thank you ahead of time to all the family, friends, neighbors, sponsors, and volunteers that put forth the hard work and dedication for this day.

Everyone who has volunteered today wants to show, educate, and help our community better understand where their food comes from. Our hope is to show what the current day agriculture and dairy farming is all about. With your support we will be able to provide funding to educate future generations in agriculture.

Thanks again,

Kevin, Lisa, Brittany and Luke
